

FROM THE DESK OF JOHN MARTIN

Picture story of the construction of the Tri-County Indoor Pits.. What you might not know about something you know something about... Luke Luther donated this land.

The building starts to take shape. Many hands make light work. Every day there is great progress, excitement builds, more and more members volunteer to help.

It won't be long now ! Just put on the roof, then the sides, windows and doors and we are ready to go inside and start laying out the courts.

Oops - Where did that wind come from ? Imagine how everyone felt when they saw this. What do we do now? Lukes dream may never happen. !!

Now stay up this time, and it did. We now have a great place to pitch. Luke was smart enough to have insurance on the construction of the building, There was no way his dream would not be fulfilled !!!.. There is an album in the lounge with many more pictures of the construction. You are welcome to view them. jm
